Court Refuses to Rule on Gradual Plan

WASHINGTON (AP) — The Supreme Court today refused to rule on validity of a gradual "stair-step" racial desegregation plan adopted for public schools in Hartford County, Md.

The action leaves the plan in effect since lower courts approved it.

The plan provides that qualified Negro students who pass special examinations are to be admitted to high school grades pending the end of segregation in those grades.

Attorneys for Negro students contended the plan did not comply with the Supreme Court's 1955 decision calling for the ending of racial segregation in schools with all deliberate speed.

The Hartford County School Board in adopting the plan cited for gradual desegregation of elementary schools over a two-year period and high schools over a period of five years.

Public Works Money Totals \$1 Billion

WASHINGTON (AP) — The House Appropriations Committee today voted \$1,074,041,500 in new funds for federal public works programs during the fiscal year starting July 1.

This is \$1,974,500 less than President Eisenhower requested. It includes \$749,445,220 for 300 water resources construction programs of the Army Engineers and the Bureau of Reclamation.

Included in the projects, for which financing was approved, subject to House action later this week, were 43 not included in the President's construction program. The committee said it believed the extra projects "would be constructed sooner or later" and an earlier start may reduce the overall cost.

The bill allots \$779,630,300 for Army Engineers' programs, \$245,738,200 to the Reclamation Bureau, \$50,104,000 to the Bonneville Power Administration, \$735,000 to the Southeastern Power Administration, \$975,000 to the Southwestern Power Administration, and \$16,850,000 to the Tennessee Valley Authority.

65 Attend Meet Friday at Gunter Farm

More than 65 farmers and others interested in timber, fish ponds and pastures attended the field day at the Gunter farm near Columbus on Friday.

The demonstrations underway in removing low grade hardwood trees and sprouts from upland pine by girdling, poisoning and managed grazing were observed and discussed by Alfred Gunter, one of the brothers owning the farm. Dean Wallace, Extension Forest Ranger, Marketing Specialist, said that the progress in Gunter farm was outstanding and that every timber producer would benefit by seeing the approach to meeting many of the quality pine production problems.

A half-truck tractor equipped with a 275-gallon tank and a nylon roller type pump was demonstrated in spraying bitterweed in pasture and hardwood sprouts in a pine timber stand. A 2-1/2 solution was applied to the pasture and a 2-4-5 solution to the hardwood sprouts.

A section of the farm fish pond that was treated on April 18 with Granular 2-4-D at the rate of about 100 pounds per surface acre of water observed by the farm visitors was fairly well cleared of weeds. D. Leroy Gray, Extension Fish Conservationist, thought the results were outstanding considering the large number of weeds in the pond at treatment. Mr. Gunter was treating the balance of the pond with the Granular 2-4-D during the meeting.

County Agent Oliver L. Adams who was in charge of the field meet will supply information on the chemical used and methods upon request. Lunch was served at noon by the Rev. J. W. Moore who invited all local youths to the school.

Russia 'Not Responsible' For U.S. Airmen

By SEYMOUR TOPPING

BERLIN (AP)—Russia refused today to take responsibility for the nine U.S. Army men taken prisoner by the East German Communist soldiers Saturday when their helicopter made a forced landing inside the satellite.

Keeping up its campaign to force Western recognition of the puppet Communist government, the Russian embassy in East Berlin declared that the East German regime has jurisdiction over the American prisoners and their aircraft because the helicopter came down outside the three Allied air corridors to West Berlin.

Russia guarantees free Allied air traffic through these corridors under a 1946 Big Four agreement. The Soviet embassy statement indicated the United States and Russia were heading into a big diplomatic wrangle over the nine Americans.

The Russian statement was in response to a newsman's question whether Russia or East Germany had jurisdiction over the Americans.

Arkansan Is Held for Rape, Kidnaping

CLINTON, La. (AP) — Sheriff Arch Doughty said today Coy Bell of Baton Rouge, a 30-year-old former Arkansas convict, had admitted he kidnaped, raped and robbed a 24-year-old mother.

Arkansas State Police said at Little Rock that Bell had served three prison sentences in that state from Lee, White and Phillips counties on charges of grand larceny, forgery and false pretenses.

The sheriff said Bell confessed to the crimes last night, a few hours after he was returned here from High Point, N. C. Bell was arrested Saturday in the North Carolina town when he stepped from a bus.

Doughty said the young mother of four reported she was raped and robbed of \$26 Thursday near Clinton in East Feliciana Parish. She said her attacker lured her from Baton Rouge into the county after he answered her ad seeking employment.

The victim identified clothes and other articles found in Bell's residence at Baton Rouge. The apartment officers also picked up information that Bell was headed for High Point and they alerted police there.

Dist. Atty. J. St. Clair Favre said he may call the grand jury into session to consider charges of aggravated kidnaping against Bell.

DeGaulle Names Cabinet; More Algeria Trouble

PARIS (AP)—Premier de Gaulle filled out his Cabinet with controversial politicians and technicians today.

Despite the politically charged agenda which De Gaulle's office had announced only this morning, the Cabinet spokesman emerged to say no discussion on France's problems had taken place.

The Cabinet met for 45 minutes and quickly approved a group of administrative decisions, including in the Cabinet and other appointments.

The one appointment left open was that of minister of public health. Official sources said that this post was being kept open for an Algerian Moslem to fulfill De Gaulle's wish that a Moslem join his Cabinet.

The other ministers named were Socialist Eugene Thomas, communications minister; Independent Roger Houdelet as agriculture minister; Gaullist Edmond Michelet as minister of veteran affairs; Catholic Popular Republican Movement member Robert Buron as minister of public works; Pierre Sudreau as minister of construction.

PARIS (AP)—Premier de Gaulle summons his Cabinet into session today and his office said he will appoint two sub-Cabinet officers to coordinate affairs in Algeria.

The office said one would be as previously announced, a top-ranking civilian administrator who will serve as an aide to Gen. Raoul Salan.

The second post would be in Paris, directly under De Gaulle himself.

The announcement of the second Algerian post coincided with the news that Jacques Soustelle, the chief political figure behind the May 13 right-wing revolt there, will there, was on his way to Paris.

The agenda for the Cabinet meeting includes discussion of French relations with Tunisia and Morocco.

Plane Lands Safely on Highway

Being in the emburcator caused a "Voyager" plane, No. N9445K, to land on Highway 27-70 a half mile north of Kirby about 9:40 a.m. Sunday. All four occupants of the plane escaped injury. The pilot, Howard Pierce of 1809 Christine, Wichita, Falls, Texas, made a perfect landing on the Highway but couldn't hold the plane on the road. It hit the shoulder near the end of its run, tilted and damaged the left wing and the landing gear.

The plane was enroute from Hot Springs to Durant, Oklahoma.

Flood Control Projects for Arkansas

WASHINGTON (AP)—Committee approval of the water and flood control projects included the following in Arkansas:

The Army Engineer projects in Arkansas include:

CONSTRUCTION
Arkansas: Arkansas River Emergency Bank Stabilization, Arkansas and Oklahoma, \$541,000; Red River levee below Dumas—Arkansas, Louisiana and Texas, \$400,000; Walnut Bayou, \$575,000; Bull Shoals Reservoir, power units No. 5 and 6, Arkansas and Missouri, \$500,000; Dardanelle Lock and Dam, \$21 million; Greer Ferry Reservoir, \$4 million; Beaver Dam, \$750,000, including \$250,000 planning funds asked in budget.

PLANNING
Arkansas: Arkansas River and tributaries, Arkansas and Oklahoma, \$300,000; Beaver Reservoir, none but the project is in for \$750,000 construction. The budget recommendation was for \$250,000. For flood control work on the lower Mississippi River and tributaries.

CONSTRUCTION
Lower Arkansas River, \$500,000; Bogert and Texas Rivers, \$300,000; Red River Backwater, \$135,000.

All the above amounts are the same as recommended in the President's budget except for the Beaver planning project. The committee bill provided for 44 new projects not in the President's budget. It made reductions in only three Army Engineer projects—none in Arkansas.

Jobless Pay Money Okayed By the House

WASHINGTON (AP)—With record speed, the House passed and sent to the Senate today a bill appropriating \$605,700,000 to finance the emergency unemployment compensation law Congress enacted last Wednesday.

The action by voice vote came after a brief explanation of the measure and less than an hour after the House Appropriations Committee had recommended the bill.

The amount approved includes \$40 million dollars for additional payments to unemployed insured workers who have exhausted their benefits. The amount payable depends on the terms of state programs and will range as high as 15 weeks in several states.

Administrative expenses take up the balance of the allotment. Under the new federal plan, one state has signed up and another has set a date for starting payments.

Court Upholds Appeal By Taxpayer

By LEON HATCH

LITTLE ROCK (AP)—The Arkansas Supreme Court today ruled that Greene Circuit Court erred in refusing to permit a taxpayer to appeal from a county court order establishing a county road.

With Chief Justice Carlton Harris dissenting, the Supreme Court said that Earl Garner acted within the legal period and that his right to contest the order for the road had not been barred.

The order of dismissal was reversed and the case sent back to the circuit court "for further proceedings consistent with this opinion."

The majority opinion was written by Associate Justice J. S. Holt. Associate Justice Ed P. McPadden did not participate.

The Supreme Court denied a petition of St. Paul-Mercurey Inc. for an order prohibiting St. Francis Circuit Judge Elmo Taylor from acting on a case growing out of a traffic collision approximately two years ago.

A truck belonging to St. Francis County and on loan to the city of Hughes was damaged. The company, which was the county's insurer, paid the loss.

The company contended that a transfer from chancery court to circuit court of litigation growing out of the accident was erroneous and that Taylor was without authority to act in the case. The Supreme Court said that if error was involved, the proper remedy was by appeal after a judgment was entered and not by writ of prohibition, which the insurance company sought.

The Supreme Court modified and affirmed a decision of Union Chancery Court relating to alimony and child maintenance from Thurman B. Harbourn to Ophelia Harbourn, his divorced wife.

The Supreme Court set aside an order for payment of \$2,100 from Harbourn. It said this apparently was in the nature of alimony and maintenance in a lump sum in advance and was not authorized. But the high court increased from \$300 to \$125 the monthly alimony and support payments because of changed circumstances of the parties. Otherwise orders of the chancery involving back alimony and distribution of proceeds from sale of some property were not disturbed.

Mr. Faubus Goes Into Seclusion

LITTLE ROCK (AP)—Gov. Orval Faubus is visiting somewhere in Arkansas today but will be in his office several days this week, his office reported.

Tomorrow the Governor will attend the dedication of the Justice Building.

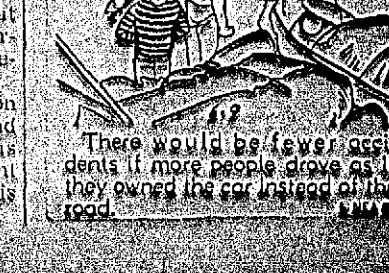

Wednesday he will attend a veterans' meeting in Des Arc. Thursday night he will address meetings of the Rainbow Girls and Girls State in Little Rock.

Negroes Charged After Altercation

Two Negro men have been charged with aggravated assault following an altercation last night at a Negro night spot near the Yenger School area. City Police reported.

Officers said Cashie Johnson was cut on the stomach, arm and face and Brooks Brantley was stabbed in the back during a fight between the two. Neither man is believed critically injured.

Accident Toll In Arkansas Claims 15

By THE ASSOCIATED PRESS.

Weekend tragedies claimed 10 lives, bringing Arkansas' violent death toll to 17 for the week which ended Sunday midnight.

Multiple-drawing accidents including the drowning of a father and his two sons and the collision of a freight train and an automobile in which a farm couple died.

A Negro man fatally wounded his wife and then hanged himself, police at Little Rock reported.

The 7-day fatality tabulation included six in traffic and six by drowning.

Raymond E. Beaver, 25-year-old Negro, killed his wife with a shotgun Sunday and then hanged himself with his belt in a city jail cell, Little Rock police reported.

Beaver's wife was Bernice, 34, Deputy Coroner Gordon Hall ruled the deaths murder and suicide.

The deaths came about two hours apart. Officers said Beaver first tried unsuccessfully to burn the shotgun on himself after snogging his wife during a family argument.

Palmborn Ernest Phillips said he found Beaver hanging from a light fixture about half an hour after the Negro was placed in jail.

A makeshift boat sank Saturday in a private stock pond near Jacksonville, drowning A. H. Peters, 36, of Little Rock and his sons Jimmy, 9, and Larry, 8. The accident occurred on the farm of J. D. Weeks, a relative, while the three were fishing.

The boat sank in 10 feet of water. A Frisco freight train and an automobile collided yesterday near Winslow in northwest Arkansas killing a couple returning home from church.

Sheriff Hollis Spencer identified the dead as Elmer E. Harris, 33, of Winslow and Harris' wife Beulah, 36. The accident occurred at a country road crossing near the couple's home.

A small sports car in which a teen-aged boy and girl were riding overturned yesterday on the Cove Lake road about eight miles south of Paris, killing the youth.

State Trooper James Hunnicutt said, Woodford J. Tankersley, 18, of Fort Smith, the driver, was crushed fatally beneath the car. Janet Wilkerson, 17, of Fort Smith also was thrown out of the car. She was hospitalized at Paris.

Near Huntsville yesterday, a pickup truck overturned killing Larry Lee Lamb, 12, of Oklahoma City, Okla. The other occupants, Charles Lamb, 14, also of Oklahoma City, and Van Walker, 13, of Altus suffered minor injuries.

Deputy Sheriff Buck Oliver reported that Andrew Cameron, 37, a Negro tenant farmer, was stabbed fatally with a switchblade knife yesterday at his home in the Cottondale community, near Pine Bluff. The Deputy said a Negro woman, Mary Walker, 38, was arrested in connection with the slaying and held on an open charge.

Things Happening at British Schools

LONDON (AP) — Cambridge's truck-on-the-roof was joined today by Oxford's five-bicycles-on-the-chimneys.

The bikes were used to decorate chimneys and pinnacles of an Oxford University building during the night.

They were hoisted up, it was firmly believed, by Oxford students not wanting to be outdone by Cambridge students who over the weekend somehow boosted a truck to the roof of Cambridge's historic Senate House.

Late this afternoon the truck was still on top—and it appeared it might stay several days. The Fire Department said it could not handle the removal. A local firm with experience in odd jobs was called in. Thursday would be the soonest the firm could get the truck down.

Getting the bikes down at Oxford should be much easier. You can just pitch them off.

New Code for NCAA Baseball Teams

KANSAS CITY (AP)—The National Collegiate Athletic Association announced today 35 baseball teams meet requirements of its new code governing participation of collegians in organized non-professional summer baseball.

The code is designed to prevent college players from losing their amateur standing during the vacation period.

Previously certified were five individual teams and two leagues including the Big Eight, composed of El Dorado, Ark., and Bastrop, Bernice, Homer, Minden and Ruston, all in Louisiana.

The Rev. Virgil D. Keeley, pastor of the Hope Church, was sent to the First Methodist church of Malvern.

rested in connection with the slaying and held on an open charge.

Feels Army Minimum Is 900,000 Men

WASHINGTON (AP) — Secretary of the Army Brucker said today he still feels the Army needs a minimum of 900,000 men, but he is bound by the decision of superiors not to resist a 30,000 cutback.

Brucker testified before a Senate appropriations subcommittee which is considering an unasked 60 million dollars to keep the Army at its present strength. The money was tacked on the Defense Department appropriations bill by the House.

Under questioning by Chairman Dennis Chavez (D-N.M.), Brucker said the Army recommended to Secretary of Defense McElroy last September an increase in Army manpower to 925,000.

At that time, Brucker said, the Defense Department had tentatively ordered a cutback to 850,000 but on appeal McElroy agreed to fix the limit at 870,000 men.

Brucker said he and Gen. Maxwell D. Taylor, Army chief of staff, "are bound by the decision of our superiors." He added, "We've done all in our power."

Faubus Hasn't Heard of Any Pressure

LITTLE ROCK (AP)—Gov. Orval Faubus said yesterday he hasn't heard about State Police putting pressure on supporters of Chris Finkbeiner of Little Rock.

Finkbeiner, an opponent of the governor in his bid for a third term, charged last week that one of his backers had recently been fined several times when his truck drivers were arrested by State Police.

The man's employees never had been ticketed similarly before, Finkbeiner said.

Finkbeiner said his supporters "might as well get used to pressure" from State Police.

Faubus declined comment on the announcement Saturday that the United States comptroller was investigating the legality of active duty pay to Arkansas National Guardsmen who were federalized last fall.

The governor said he did not know enough about the matter.

Chavez reminded Brucker that he could express an opinion without bucking the decision.

Brucker then told the senator:

"I can say that we have seen nothing since last September to change the logic of our request. On the contrary, we see many things to corroborate our judgment. But, we are not here in any sense to upset the decision of our superiors."

The subcommittee is considering the biggest annual money bill, carrying 33½ billion dollars of new money to operate the nation's military forces for the year that

begins July 1. It passed the House Thursday.

Brucker, with Taylor at his side, said the opinion of all the experts in his command is that 15 divisions of at least 900,000 men is the minimum defense requirement for an adequate Army.

McElroy last Friday asked the senators to trim out an extra quarter of a billion dollars voted by the House to prevent cutbacks in the manpower of regular and reserve forces of the Army and Marines.

He said modern weapons enabled the Defense Department to recommend the cutback.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all — results were so thorough that sufferers

made astonishing statements like "Piles have ceased to be a problem!" "The secret is a new healing substance (Bio-Dyne) — discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H. At your druggist. Money back guarantee."

"To best serve the people of this community I maintain a stock of carefully selected merchandise. To be able to recommend the best product for every need, it is part of my training to know the standards of quality and measures that have been established by science and experience. When I order goods my selection is based on the known merits of these widely recognized standards."

"Then I advertise to give people the news of my store. Because I know that nearly everybody reads a newspaper I use newspaper advertising regularly. When people pay for newspapers they read them carefully for all of the news that is interesting to them. When my ads are new and contain useful information I know that people will read them because they are news."

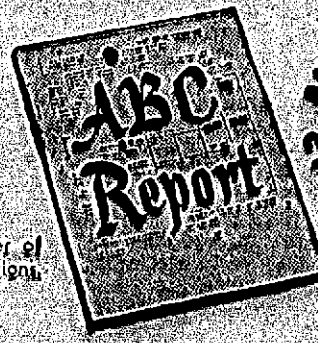

Another fact that merchants like about newspaper advertising is that they can buy it on the basis of known values that are just as definite as the measure of weight and quality that apply to the merchandise which they handle.

Businessmen cannot afford to speculate with advertising. When they buy newspaper space they can make their investments on the strength of circulation facts and figures that are verified. It is good business practice to buy advertising by such methods just as it is good business to buy and sell merchandise on the basis of known standards.

At regular intervals the A.B.C., of which this newspaper is a member, sends an experienced circulation auditor to make a thorough inspection and audit of our circulation records. The FACTS established by his audit are published in an A.B.C. report which tells you: How much circulation we have; where it goes; how obtained; how much people pay for our paper; and many other FACTS that you need in order to KNOW what you get for your advertising money.

Berryville Girl Is 'Miss Chick'

RUSSELLVILLE, Ark. (AP) — Arkansas' "Miss Chick" is Donna Sue Needham, an 18-year-old beauty from Berryville.

Miss Needham, daughter of Mr. and Mrs. Frank Needham, won the title Saturday night in the contest which climaxed the Arkansas Poultry Festival here. She received a \$200 wardrobe, a college scholarship and an expense-paid trip to Los Angeles.

Mickey Lambert of El Dorado was second and Patsy Griffin of Prescott was third in the judging. At a business meeting, the Arkansas Poultry Federation elected S. B. Mitchell of Russellville president.

State to Be Hot All This Week

LITTLE ROCK (AP)—It's going to stay hot the rest of the week, the weatherman said today. Temperatures in Arkansas for the next five days are expected to range from two to five degrees above normal—which means maximum temperatures ranging up to 97 degrees.

was lovely in a white dress of tulle overlaid with lace, the skirt had a pleated nylon net insert ruffled net underskirt. The moulded bodice was completed by a matching lace jacket. Her finger tip illusion veil fell from a tiny hat with seed pearls. She carried a purple threaded orchid tied with love knots of satin ribbon. Her only ornament was a tiny white gold bracelet.

Miss Carolyn Brooks, maid of honor, chose a white cut work embroidered over white and white accessories. She carried a nose gay of pink carnations.

Phillip Rowe, cousin of the groom served as best man.

For her daughter's wedding, Mrs. Atkins selected a navy dress with matching accessories and a corsage of yellow chrysanthemums. Mrs. Hampton chose a beige dress with matching accessories and a corsage of bronze chrysanthemums.

Mrs. J. B. Rowe, grandmother of the groom was dressed in a gray floral nylon dress and wore a yellow mum corsage.

For travel the bride wore a baby blue polished cotton dress and pinned at her shoulder the orchid from her bridal bouquet.

Following the ceremony the bride and groom greeted their friends outside the vestibule of the church and departed immediately for a wedding trip.

Mr. and Mrs. Hampton will make their home in Hope.

Educators Decline the Thomas Plan

LITTLE ROCK (AP)—The state Board of Education declined today to participate in the Thomas plan to restore racial harmony in Arkansas.

In a formal statement the board said it did not have the legal authority to go into federal court and support the proposal which calls for voluntary desegregation of Arkansas schools.

The plan was drawn up months ago by Herbert Thomas Sr., a Little Rock insurance executive. He presented it to the board and later explained the plan to a number of white and Negro leaders.

Gov. Orval Faubus has never given a clue as to how he feels about the Thomas plan. He once commented that the will of the people would decide the matter.

Thomas asked the Board of Education to take the lead and determine which school districts are ready for integration and which are not.

Under his plan an interracial commission would advise individual school districts on desegregation. The Negroes now enrolled at Central High School would be dismissed and all racial lawsuits would be withdrawn.

"We must decline to go into court and undertake to foster a plan of integration or of segregation in the public schools of this state," the board statement said.

The board said it believes that every school district is the primary authority in the matter of integration since the board is composed of local people.

Board Chairman Marvin Bird of Parle said he thought Thomas, who he said had worked diligently on the racial plan, deserved some answer from the board.

Bird said that to his knowledge no school district ever has asked the state board to take part in any plan of either integration or segregation.

John Rye of Russellville, vice chairman, said that if the board had attempted to establish a policy of segregation "we would have to go to Fayetteville and Van Buren and say to those schools that they would have to stop their integration."

On the other hand, Rye said, if an integration policy were adopted the same reasoning would apply in reverse.

"We must keep the board out of all local affairs," he said, "not only on integration or segregation but on any other local issues."

Radio Driven Nuclear Plane Not Far Off

By VERN HAUGLAND

AP Aviation Reporter

WASHINGTON (AP)—The nation's first nuclear-powered aircraft may be unmanned and radio controlled.

It may circle for six months or a year, remote from populated regions, and then be landed for examination.

Such a test flight could bring to light any unsuspected problems and help assure safety of crews later.

These possibilities were being discussed in the aviation industry today in the light of a new brochure on "Aircraft Nuclear Propulsion Systems Applications for the National Defense," distributed by General Electric Atomic Products Division.

The GE Aircraft Nuclear Propulsion Department, Cincinnati, has been working for more than five years to develop materials, methods and engineering concepts for nuclear aircraft. Work has been under way both at the Evansdale, Ohio, plant and at the Idaho Falls, Idaho, atomic energy installation.

Reporting "gratifying results of component tests," the GE brochure said, "Nuclear powered aircraft are capable of remaining in their element air for the major

charge of the FBI office here, said Sisco was arrested Saturday in Warren and arraigned at Camden before U. S. Commissioner James M. Rowan Jr. Sisco was released under \$1,000 bond.

The agent said the embezzlements occurred between Feb. 23, 1954 and Oct. 9, 1957.

He said Sisco, a native of McGee, worked for the Warren bank from March 1953 until his resignation in December 1957. Sisco formerly was in the banking business at McGee.

portion of their life." The company did not say when atomic-powered aircraft might be ready for use. Defense officials have indicated that at least several years will be required to develop a workable military plane. But when such planes are put into use, the company said their long range will eliminate present heavy requirements for fuel and for the tankers and air crews headed for aerial refueling operations, and will cut down sharply on the need for overseas bases. The booklet said nuclear-powered aircraft eventually can be used either as bombers or as missile launchers on constant station aloft.

They also can be used for global surveillance in antisubmarine, early warning, weather and reconnaissance patrol as well as in intelligence, inspection and worldwide logistic support of U. S. ground forces, it added.

Chiropractor Asks License Back

LITTLE ROCK (P) — A Pine Bluff chiropractor, today asked the state Board of Chiropractic Examiners in suspending his license for a year.

Lewis Alfred Norville made the request in the form of a petition for a writ of certiorari (petition for review).

Named as defendants were Dr. T. S. Murphy of Little Rock, president of the board, Dr. A. H. Green Jr., of Little Rock, secretary, and Dr. Roy E. Mathis Jr., of Texarkana, treasurer.

The suit said the board suspended Norville's license at a May 21 hearing on grounds that he had been found guilty of "unprofessional conduct."

Norville contended that the board lacked jurisdiction and that its action was not supported by evidence. He said he had practiced chiropractic for 30 years and employed a high professional reputation which would be damaged by the board's order.

Ex-Champ Breaks Up A Dance Brawl

CAMDEN, N.J. (AP) — Jersey Joe Walcott, onetime heavyweight champion of the world, broke up a brawl among a mainly teenage crowd after a Saturday night dance.

Walcott, who had set upon a ruckie cop, thrown away his pistol, and started to mail him.

The policeman, William Reeves, 26, had taken his wife to the dance. As they left, the youths were scrapping in the street. Reeves tried to break it up but was attacked. His face was cut and his legs were bruised.

Walcott, whose age is given as 44 in boxing records, is a special officer with the city's juvenile bureau. He and a fellow officer waded in and with the help of another off-duty policeman, subdued the brawlers.

Three, ranging in age from 18 to 22, were arrested.

The Passion Play, next to be seen in 1960, has been performed in the small village of Oberammergau, Germany, once every 10 years for 300 years.
